Guarantee of Healthy Arrival:

Albinoburmese.com, Inc. guarantees the live and healthy delivery of every animal it sells. Healthy means the snake(s) will be bright, alert, and free from disease (*mites or other external parasites, internal parasites such as worms or protozoans, and infections caused by bacteria or fungi*). Each snake is closely inspected before shipment. Once a thorough physical exam finds them healthy, they are placed into the snake sack for travel. It is unlikely that snakes arrive ill, however, if you feel your snake may be ill you must notify Craig Stanton via telephone (970)231-5650 within two hours of receipt so Albinoburmese.com, Inc. can fulfill this guarantee. Failure to act within the two hour time limit jeopardizes the fate of the snake and will forfeit any benefits from this guarantee. You are advised to have an exotic veterinarian inspect the snake if you are uncertain of your abilities to assess the health of the animal(s). Snakes that arrive with outward signs of illness/disease will be refunded for the purchase price, or replaced if suitable replacement stock is available. Albinoburmese.com, Inc. will decide on a case by case basis whether the snake(s) will be returned to Albinoburmese.com, Inc. as some illnesses may contraindicate further travel.
